REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claimed compositions are considered patentable over the closest prior art as noted in the first office action and over the references to Camberlin et al, Di Milo et al and Bouchal et al because nowhere is there taught the required combination of degree of both functionality and hydrogenation along with the viscosity as claimed. The prior art is aware that hydrogenation results in reduced functionality and has not enabled the production of polymers with both functionality and hydrogenation at the levels claimed. Applicants have developed the method of hydrogenation to accomplish this, and have shown that the prior art methods result in lower functionality and chain degradation. The claimed compositions are, therefore, both novel and unobvious over the closest prior art as cited. The issue of 1.7 functionality is deemed acceptable as reading on "about two" insofar as it is only a 15% deviation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Lipman whose telephone number is 571-272-1105. The examiner can normally be reached on 8-5 Mon-Fri.

Application/Control Number: 10/655,988 Page 3

Art Unit: 1713

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on 571-272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
